**October 1, 2018**

Dear B-47 Stratojet Association Members;

As your Secretary/Treasurer it's my obligation to inform you the Board of Director's during their Bi-Annual Meeting on September 17, 2018 voted to disband the Association. On September 20, 2018 this proposal was presented to the Membership at the Bi-Annual Membership Meeting. The vote was unanimous to disband. The Board of Directors reviewed several requests for our remaining funds, the final vote was as follows; "In light of declining membership in the B-47 Stratojet Association the Board of Directors recommends the organization be disbanded after all Association debts have been paid. The Association's funds shall be distributed as follows:

- a. **The National Museum of Nuclear Science and History, Albuquerque, NM, \$5,000.00.**
- b. **The balance of the remaining funds will be distributed to The Strategic Air Command & Aerospace Museum, Ashland, NE., where they will be restricted to the restoration of the B-47 (SN 52-1412) on display.**
- c. **The current Board of Directors will serve until a final financial report has been approved by the at least 2/3rds., of the Board of Directors after which the Association shall be deemed disbanded.**

Due to these decisions we will publish the last Stratojet Association Newsletter. Please note all dues paying members have been converted to **Life Members**. With the closure of our bank account I will no longer accept any donations or renewals. The Membership database will be "frozen", **no more address changes!** Please **do not send any obituaries**, those published in the last newsletter will be the final **ROLL CALL of HONOR!**

It has been a great pleasure serving you and this organization. To every member, "Charter" or if you just joined in 2018 I have enjoyed meeting and working with all of you. Lastly, we will continue to have a web page, to be renamed "**B-47 Stratojet Historical Web Page**", to the year 2030, thanks to the efforts of Dan Diamond.

Sincerely yours;

Dick Curran
